Hello I'm

Suman Kanti Roy

Senior Product Designer

I am a UI/UX professional with 12+ years of experience crafting research-driven enterprise solutions and easy-to-use consumer products. My approach is defined by a unique dual background in Science (B.Sc.) and Fine Arts (BFA), allowing me to connect the dots between complex human needs, engineering logic and aesthetic flair.

" I believe a good design brings people together and it turns frictions into flow and frustrations into connections."

Career Experience

Usability Design Engineer
Lexmark International India Pvt. Ltd.
17 Jan 2022 - 14 Nov 2025

User Experience Designer
Wipro Technologies Limited.
17 Mar 2017 - 15 Jan 2022

Graphic UI & UX Designer
Rxprism Health Systems Pvt. Ltd.
11 Mar 2015 - 15 Mar 2017

Graphic & Web Designer
Hibu India Pvt. Ltd.
06 Jan 2014 - 20 Feb 2015

Education

Bachelor Of Fine Art
Govt. College of Art & Craft, Tripura University • 2006 – 2010

Bachelor Of Science
Maharaja Bir Bikram College, Tripura University • 2003 – 2006

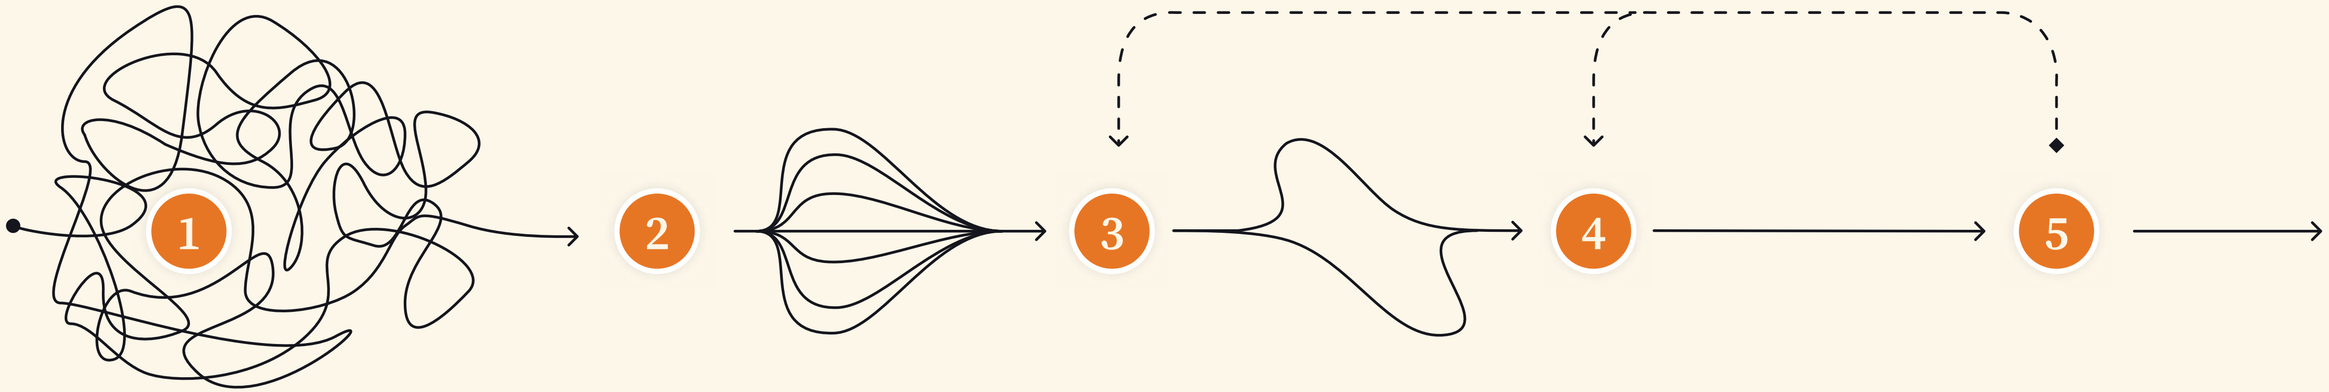
Certification

Effective Business Communication
IIM Bangalore – Dec 2023

NPTEL Usability Engineering
IIT Guwahati – May 2024

Design Process

I begin by untangling complexity knots, uncovering hidden frictions, and precisely framing problems. I then shape and validate ideas against business, tech, and user needs, lastly iterating until concepts become scalable, build-ready solutions.



Finding Frictions

Framing Problems

Shaping Solutions

Pragmatic Usability

Quality Iteration

Expertise Skills

Tools Proficiency

- Figma
- Adobe XD
- Photoshop
- Illustrator
- InDesign
- Affinity

Design Competency

- Wireframing
- Prototyping
- Usability Testing
- Heuristic Evaluation
- Data Visualization
- UI Design
- Interaction Design

Research Expertise

- Miro
- Maze
- Strak
- UserTesting
- NotebookLM

AI & Frontend

- HTML-5, CSS-3
- JavaScript
- Bootstrap
- Vibe Coding
- Prompt Engineering

Featured Project 1

Omni P3

Retail Store Operation

Streamlining retail back-office workflows through intelligent automation and strategic UX, bridging the gap between complex data and daily warehouse operations to align inventory accuracy with real-time demand.

Problem

- Poor batch & inventory visibility.
- Outdated batch management system.
- High reprinting operational cost.
- Frequent stockouts in showcase area.

Solution

- Streamlined quick tasks by scanning.
- Cleaner dashboard for all user group.
- Mobile-first approach rush hours.
- Boosting all batches print & publish.
- Implemented Figma, React & Flutter.

Results

- Reduced clutter, show only essentials.
- Increase productivity by 10% ~ 15%.
- Archived targeted adoption 25%.
- More 20% customer engagements.

View Details

Duration: 24 weeks • 2024-25

Featured Project 2

PrintAR

Augmented Reality App

AR-driven platform designed for real-time virtual augmentation and smart print management. It delivers a high-velocity user experience through self-solving workflows, eliminating IT intervention and navigation.

Problem

- Confusing text-heavy PDF manuals.
- Unable to find available printers.
- High volume of IT support tickets.
- Fixing and reactive maintenance.

Solution

- Replace manual to 3D demonstration.
- Displays real-time "Printer Health".
- Navigate user to device destination.
- AR powered self trouble shooting.

Results

- Zero IT intervention to error resolved.
- Zero time wasted searching printer.
- Encourage hardware interactivity.
- LEX adherent privacy compliance.
- Predictive on demand notifications.

View Details

Duration: 6 weeks • 2022-23

Key Achievement

Lexmark CTO Excellence Award - 2022
