Profile Summary

UX professional with 12+ year of experience crafting easy-to-use, research-driven, user-centric products and enterprise solutions. I connect the dots between complex human needs, engineering and aesthetic Flair, with a unique dual background in Science (B.Sc) and Fine Arts (BFA).

" I believe a good design brings people together and it turns frictions into flow and frustrations into connections."

Work Experience

Usability Design Engineer
Lexmark International India Pvt. Ltd.
17 Jan 2022 - 14 Nov 2025

User Experience Designer
Wipro Technologies Limited.
17 Mar 2017 - 15 Jan 2022

Graphic UI & UX Designer
Rxprism Health Systems Pvt. Ltd.
11 Mar 2015 - 15 Mar 2017

Graphic & Web Designer
Hibu India Pvt. Ltd.
06 Jan 2014 - 20 Feb 2015

Education

Bachelor Of Fine Art
Govt. College of Art & Craft, Tripura University • 2006 – 2010

Bachelor Of Science
Maharaja Bir Bikram College, Tripura University • 2003 – 2006

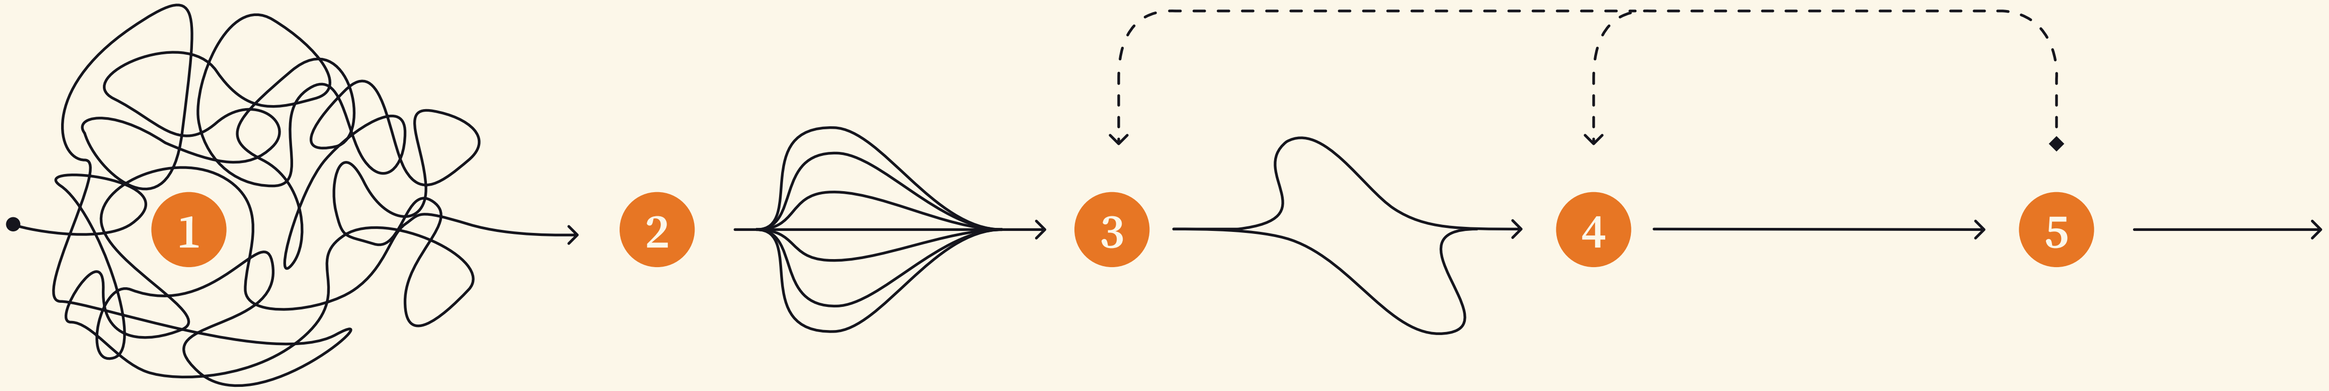
Certification

Effective Business Communication
IIM Bangalore – Dec 2023

NPTEL Usability Engineering
IIT Guwahati – May 2024

Design Process

I start by untangling complexity to frame the right problem. I then shape and validate ideas against business, tech, and user needs, iterating until concepts become scalable, build-ready solutions.



1. Finding Frictions
2. Framing Problems
3. Shaping Solutions
4. Usability Testing
5. Design Iteration

Professional Skills

Tools Proficiency

- Figma
- Adobe XD
- Photoshop
- Illustrator
- InDesign
- Affinity

Design Skillset

- Wireframing
- Prototyping
- Interaction Design
- Usability Testing
- Heuristic Evaluation
- Data Visualization

Research Expertise

- Miro
- Maze
- Strak
- UserTesting
- NotebookLM

AI & Frontend

- HTML-5, CSS-3
- JavaScript
- Bootstrap
- Vibe Coding
- Prompt Engineering

Featured Project – 1

Omni P3

Retail Warehouse Operation

Streamlined retail warehouse workflows through intelligent automation and UX decisions that connect user, data, and daily store operational works.

Problem

Outdated batch management lead to delayed orders and reprint mismatches. Poor inventory visibility and frequent stockouts & High operational costs due to reprinting delays (10% impact).

Solution

Implemented a mobile-first dashboard using Figma, React, and Flutter.

Streamlined primary tasks such as creating/editing signages and boosting social ads via scan or typing.

Results

- Reduced clutter, show only essentials.
- Increase productivity by 10% ~ 15%.
- Archived targeted adoption 25%.
- More 20% customer engagements.

Open Prototype

Duration: 24 weeks • 2024-25

Featured Project – 2

AutoCare

Smart Automobile Service

End-to-end automobile service experience unifying consumers, technicians, and business needs into a single platform to reduce fragmented touch points.

Problem

Consumers are often unorganised and forget to track regular car maintenance. Technicians face productivity issues. Garage owners struggle with overdue payments and consumer complaints.

Solution

Developed a tripartite platform for Consumers, Technicians, and Garage owners (Dealers).

Features like Smart scheduling, expense analytics, performance scores, and real-time navigation.

Results

- Streamlined communication channel.
- QR code 45% faster processing time.
- Applied auto-invoicing & sales report.
- 8% improvement diagnosis accuracy.

Open Prototype

Duration: 06 months • 2021

Featured Project – 3

Pro PrintAR

Integrated Augmented Reality

AR-driven printing platform designed for real-time visualisation, smart print management, and faster troubleshooting within modern office environments.

Problem

Routine maintenance relies on dense, confusing text-heavy PDF manuals.
High volume of IT support tickets for simple tasks like toner replacement.
Unable to find available printers near by.

Solution

Spatial displays real-time "Printer Health" (e.g., toner levels) as 3D bars floating over the machine.

Replaces instructions manual with 3D overlays that highlight specific action to perform.

Results

- Zero IT intervention to error resolved.
- Zero time wasted searching printer.
- Encourage hardware interactivity.
- LEX adherent privacy compliance.
