Hello I’m

# Suman Kanti Roy

## Senior Product Designer (UI/UX)

Scan to visit my portfolio

# Profile Summary

*UX professional with 12+ year of experience crafting easy-to-use, research-driven, user-centric products and enterprise solutions. I connect the dots between complex human needs, engineering logic and aesthetic flair, with a unique dual background in Science (B.Sc) and Fine Arts (BFA).*

*" I believe a good design brings people together and it turns frictions into flow and frustrations into connections."*

# Work Experience

**Usability Design Engineer**
### Lexmark International India Pvt. Ltd.
17 Jan 2022 - 14 Nov 2025

**User Experience Designer**
### Wipro Technologies Limited.
17 Mar 2017 - 15 Jan 2022

**Graphic UI & UX Designer**
### Rxprism Health Systems Pvt. Ltd.
11 Mar 2015 - 15 Mar 2017

**Graphic & Web Designer**
### Hibu India Pvt. Ltd.
06 Jan 2014 - 20 Feb 2015

## Education

### Bachelor Of Fine Art
Govt. College of Art & Craft, Tripura University • 2006 – 2010

### Bachelor Of Science
Maharaja Bir Bikram College, Tripura University • 2003 – 2006

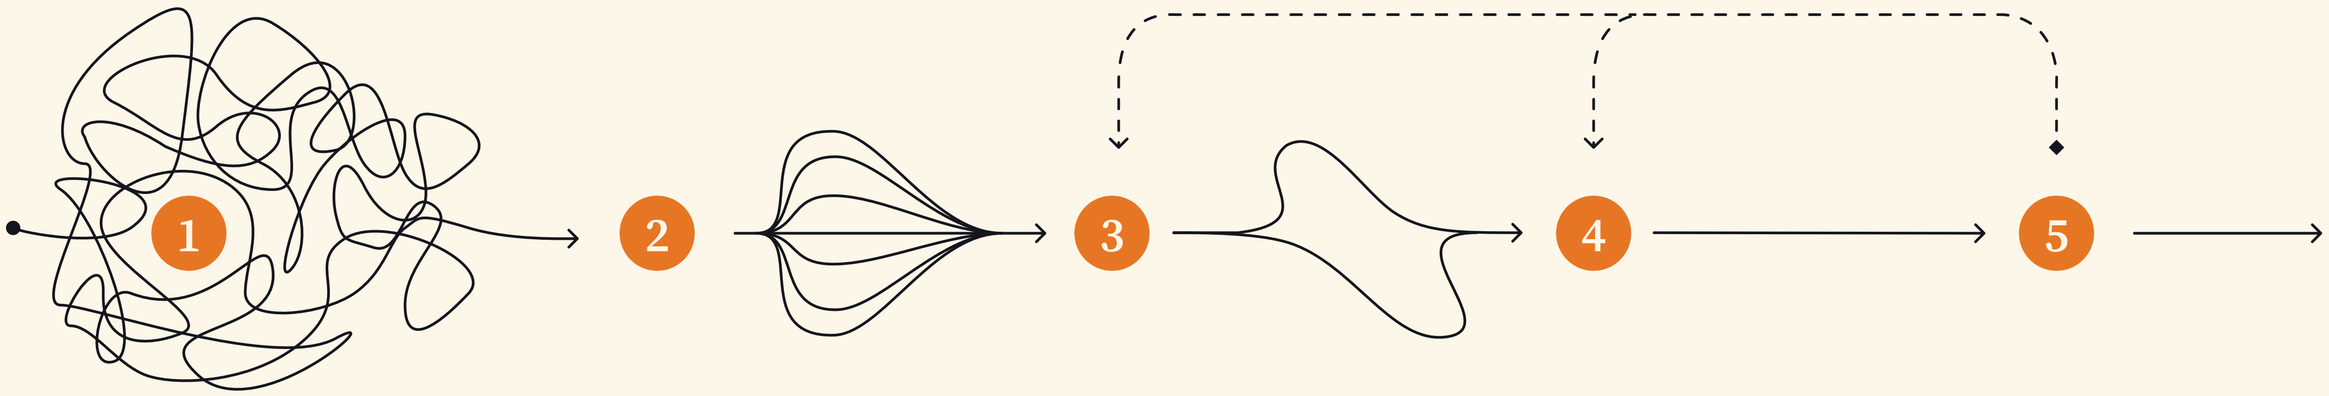
## Certification

### Effective Business Communication
IIM Bangalore – Dec 2023

### NPTEL Usability Engineering
IIT Guwahati – May 2024

# Design Process

*I begin by untangling complexity knots, uncovering hidden frictions, and precisely framing problems. I then shape and validate ideas against business, tech, and user needs, lastly iterating until concepts become scalable, build-ready solutions.*



**Finding Frictions**

**Framing Problems**

**Shaping Solutions**

**Pragmatic Usability**

**Quality Iteration**

# Professional Skills

### Tools Proficiency

- Figma
- Adobe XD
- Photoshop
- Illustrator
- InDesign
- Affinity

### Design Skillset

- Wireframing
- Prototyping
- Interaction Design
- Usability Testing
- Heuristic Evaluation
- Data Visualization

### Research Expertise

- Miro
- Maze
- Strak
- UserTesting
- NotebookLM

### AI & Frontend

- HTML-5, CSS-3
- JavaScript
- Bootstrap
- Vibe Coding
- Prompt Engineering

# Featured Project – 1

## Omni P3

Retail Warehouse Operation

Streamlined retail warehouse workflows through intelligent automation and UX decisions that connect user, data, and daily store operational works.

### Problem

Outdated batch management lead to delayed orders and reprint mismatches. Poor inventory visibility and frequent stockouts & High operational costs due to reprinting delays (10% impact).

### Solution

Implemented a mobile-first dashboard using Figma, React, and Flutter.

Streamlined primary tasks such as creating/editing signages and boosting social ads via scan or typing.

### Results

- Reduced clutter, show only essentials.
- Increase productivity by 10% ~ 15%.
- Archived targeted adoption 25%.
- More 20% customer engagements.

**Duration:** 24 weeks • 2024-25

# Featured Project – 2

## AutoCare

Smart Automobile Service

End-to-end automobile service experience unifying consumers, technicians, and business needs into a single platform to reduce fragmented touch points.

### Problem

Consumers are often unorganised and forget to track regular car maintenance. Technicians face productivity issues. Garage owners struggle with overdue payments and consumer complaints.

### Solution

Developed a tripartite platform for Consumers, Technicians, and Garage owners (Dealers).

Features like Smart scheduling, expense analytics, performance scores, and real-time navigation.

### Results

- Streamlined communication channel.
- QR code 45% faster processing time.
- Applied auto-invoicing & sales report.
- 8% improvement diagnosis accuracy.

# Featured Project – 3

## Pro PrintAR

Integrated Augmented Reality

AR-driven printing platform designed for real-time visualisation, smart print management, and faster troubleshooting within modern office environments.

### Problem

Routine maintenance relies on dense, confusing text-heavy PDF manuals.
High volume of IT support tickets for simple tasks like toner replacement.
Unable to find available printers near by.

### Solution

Spatial displays real-time "Printer Health" (e.g., toner levels) as 3D bars floating over the machine.

Replaces instructions manual with 3D overlays that highlight specific action to perform.

### Results

- Zero IT intervention to error resolved.
- Zero time wasted searching printer.
- Encourage hardware interactivity.
- LEX adherent privacy compliance.
